YADROBALOM, Romania (AP) — The Gendarmerie's technical squad has finished the liquidation of the market here, the hub of a major highway and two rail lines that were linked to those at other sites in the northwestern part of Moldova, prosecutors said. A judicial source, speaking on condition of anonymity, said Wednesday that the teams of the Gendarmerie's Scientific Department dismantled a boat, a taxi and several other vehicles that were used in the

importation of oil and petrol, as well as the dismantling of several plants that were connected to the operation. ADVERTISEMENT The vehicles and plants were confiscated and, as per law, were sent to prosecutors to undergo a sanctioning process. The source said five people have been detained, suspected of involvement in the people-smuggling operation. It wasn't immediately clear how far the smuggled oil was used up. Moldova, a former Soviet republic, held legislative and presidential elections on Sunday. The country is located between Romania and Ukraine. ____ This story has been corrected to show that the Gendarmerie's Scientific Department, not the Special Investigation Service, is involved in the investigation. Establishing the effect 1cb139a0ed
