This is the best I've seen so far. It's small, fast, extremely customizable and works on all versions of Windows you can name. It does all your memory management tasks - defrag, optimize, free, swap and so on. It also has a huge numbers of options for customizing. It's not easy to find. It was created by a friend of mine. I highly recommend this. P.S. The author of the program, Dr. Me, has a
