Get Your Keys is a lightweight software application whose purpose is to help you automatically retrieve your Windows serial number using simple actions. Portable running mode Thanks to the tool's portability status, you can keep it stored on USB flash drives or other portable devices to have it with you all the time. Plus, you may open it without administrative privileges on the target computer. Gaining access to the program's features requires only opening the executable file because you do not have to go through an installation process. No settings files are left on the host system so you can get rid of it using a simple deletion task. Retrieve Windows product key You do not need to perform any special tweaks and complex configuration settings in order to get your Windows serial number. The information is automatically retrieved in the main window. The GUI looks really simplistic and reveals additional details about the current operating system, 32- or 64-bit build, build number, PID, as well as email address of the registered user. The information displayed in the main window can be exported to plain text file format or copied to the clipboard so you can transfer it to other third-party utilities. Tests have shown that Get Your Keys carries out a task quickly and without errors. It is not a resource hog so you do not have to worry that it eats up CPU and memory resources. Final verdict All things considered, Get Your Keys delivers a fast and straightforward software solution for helping you find out your Windows product key automatically. The intuitive design makes it an ideal choice for rookies and professionals alike. My nephew and I have been trying to get this program for a few weeks now. We downloaded the zip file, ran it on my wife's Windows 8 computer, unzipped it, and ran it.

After about 30 minutes, the program was still running. When I checked on it, it said the computer still had a key. In all, the program took hours to do what should have been done in minutes. Even though the program is free, it is worthless. Bounce.cz said: Thank you for the feedback. Unfortunately, I'm not going to support a program that takes hours to run. My apologies. However, thanks for the testimonial. I will investigate your claims and get back to you soon. Good program for retrieving serial number on Windows 7. However, I tested it on a 64 bit Windows 7 machine and it only worked on a 32 bit version of Windows
