### System Requirements For HTML Compress:

Please note that the game requires a powerful PC to run it properly, with a 1.6 GHz processor, 3 GB of RAM and GeForce GTX 750 or Radeon HD 7870 to play at full screen. You can also enable the game to use more CPU power by opening the setting tab of the in-game settings and increase the value of "overall quality" up to the value 100 or increase the value of "graphics quality" up to the value 100. Please note that this product is not suitable for gamers who have an old computer or an older
