== Standalone Free Portable Software to Manage All your Personal & Business Files (Information) == Need an office, where you can easily add files, email, chat, message, meeting calendar, notes. "Computer Organizer" you can enjoy a powerful portable software which can help you to organize all personal & business files, from one single place (Disk, Photos, Music, Videos etc.) on any computer system (USB drive, mini hard drive, CD/DVD). I think you could do the exact same thing with Google Docs, and Word. What are your thoughts? "All in all, Portable Efficient Diary is an interesting app that can be quite useful. Inexperienced users should be able to quickly figure out how to work with this software, thanks to its intuitive layout." An important part is to define a different structure and to be focused on the files you want to organize. For instance, if you wish to use Portable Efficient Diary to develop an activity diary you may not use the same structure as if you wish to have an appointment diary. So you should consider a structure for each type of diary. Features: 1. Add files to the right folders 2. All files have a folder structure for easy management (directories for a diary may vary, and structure of the diary may vary) 3. All files can be stored both on a flash drive and on your computer, so you can take your diary anywhere you go. 4. You can preview the files before you add them, so you can decide what you want to add or not. 5. You can categorize the files in more than 1 way, so you can keep your diary organized. You can choose from 5 different categories that may help you locate a file more easily, such as: - Personal - Business - Education - Download - Others 6. You can arrange files of a certain category in more than one way (order number, date, time) 7. Advanced search and setting your own favourites (which also saves data on your computer, so it can be opened again on any computer) 8. Bookmarks for the documents you visit often 9. Different Views: Poster, List, Day, Day by day 10. Some templates for various types of files: documents, photo, audio and video 11. Full text search to find a word or a string within the files, even if the

What's New In?

Last time, people all over the world used to write down their most private thoughts in the pages of a diary. Nowadays, apps like Portable Efficient Diary have taken the place of this century-old tradition. The program comes with a nice interface that lets you view all the entries created recently. The diary entries can be created with the help of a text editor. This enables you to choose the font name, color and size, pick an emphasis option (bold, italic, underline) and set the text alignment. Bullet point and numbered lists, as well as tables can be included in the text. Pictures and attachments are easy to add to any diary entry. Furthermore, you can choose one of the weather conditions available (cloudy, partly cloudy, sunny, rainy and snowy) and one of the available moods, such as happy, sad, doubt, sigh, idea and love. The program comes with a "Search" tool that enables you to filter through all the diary entries. Thus, you can look for a certain word in the title, content brief, categories and diary entry content. Additionally, a time filter can be set up in order to increase the chances you locate the file. All the files are safe from prying eyes, as the app lets you set up a password when you first launch the program. Without providing the correct string of keys, access is denied. Since the app is completely portbale, it doesn't need to be installed on the computer. However, it can be launched from all types of removable devices, such as flash drives. All in all, Portable Efficient Diary is an interesting app that can be quite useful. Inexperienced users should be able to quickly figure out how to work with this software, thanks to its intuitive layout. Excellent free diary and notes app. Has a nice intuitive interface. Can change the font, text size, color, etc. The software has a search function which is useful to look for entries within a time range. Portable Efficient Diary is a simple diary app. It takes only few seconds to open. All I need is to write down my thoughts and turn them into a diary entry. It is very easy to use. I can add a picture of myself, I can edit my text and I can set a password to protect the content. I can then search for the diary entries and I can delete them. It is good that I can work directly on a flash drive
